Gentlemen:-

In the course of compiling the data for my book "The Wright Family of Oyster Bay, L. I.", I gathered the records herewith respecting the family of Anthony Wright of Loudoun Co., Va., thinking that that family might have been an offshoot of the Oyster Bay Family, but later found there was no connection between them. There is so much data of interest gathered here that I did not wish to destroy it, hoping the data might prove of value to someone of that family who might at some future time undertake to complete the full history of this Virginia family.

The descendants of a son of this Anthony Wright, viz. Robert Wright, are largely scattered thru Iowa, especially around West Liberty, and this data may prove of easy access to them by placing it in your Library. I take pleasure in presenting you this copy.

Yours very truly,

H. D. Perrine

ANTHONY WRIGHT, OF LOUDOUN COUNTY, VIRGINIA.

Extended research failed to establish the ancestry of ANTHONY WRIGHT, and family tradition and records afforded no further information or clues.

Family tradition developed the claim that his ancestors were ENGLISH, coming to America in the early part of the 18th Century, settling later on land acquired from William Penn, in Pennsylvania.

The record of the Land warrants granted by Penn, as recorded in the archives of the State of Pennsylvania contain nothing sustaining such a claim affirmatively, as the name "ANTHONY WRIGHT", did not appear, at this early period, in the list of warrants for Lancaster County, where he is supposed to have settled. (Penn's Archives, 3d. Series, Vol. 24). It is possible however that his father may have acquired such lands from Penn, but without the fathers christian name such a fact could not be established.

The earliest record found gave the following data:

"John Wright was educated as a physician in England, and settled in Chester County, Pa. in 1714. In 1725-26, he removed to the "backwoods", as that territory was then known, and which, in May, 1729, was set off from Chester County, and became known as Lancaster County. John Wright was a Quaker".

(Hist. sketch of Chester, Pa., William S. Johnson. 1883, p. 177.)

The Pennsylvania Archives contain much interesting history, and possibly the following items may have some bearing or connection with the ancestry of ANTHONY WRIGHT, but so far without definiteness.

Under date of September 2, 1728 we find:

"Instructions to JOHN WRIGHT, respecting Indian troubles".

(Penn'a Archives. Vol 1, p. 223).

Under date of September 24, 1735, we find:

"Deposition of JOHN WRIGHT, a Justice of the Peace for the County of Lancaster, Pa., Quaker, owns tract of land on west side of Susquehanna (river) opposite Plantation which he now lives on, east side of said river, seven or eight miles north from City of Philadelphia, respecting depredations on his said land, on West by one Thomas Cressap, of Maryland."

(Ibid. Vol 1, p. 484).

The records of Lancaster County, show that administration on the estate of one JOHN WRIGHT, was granted, in 1749, to JAMES WRIGHT, probably a son, but fails to disclose names of any other possible heirs of JOHN WRIGHT.

"A poll of recruits enlisted into CAPT. JOHN WRIGHT'S Company, in pursuance of a commission from the Honorable WM. DENNY, ESQ."

Date of Muster, May 11, 1759.
Ibid 2d. Series, Vol. 2, p. 582)

See also, "Biog. Hist. of Lancaster Co., Pa., Alexander Harris. 1872, p. 824.

Following is a list of Penn Land Warrants beginning with the earliest name of Wright, showing the quantity of

land purchased, and dates the surveys thereof was made:

"John Bright	200 acres	April 9, 1735
Isaac Bright	150 "	Mch. 21, 1737
James Bright	300 "	Dec. 5, 1737
Isaac Bright	100 "	Feb. 4, 1743
James Bright	103 "	May 22, 1748
James Bright	50 "	June 14, 1749
Elizabeth Bright	100 "	June 14, 1749
Thomas Bright	50 "	Nov. 9, 1749
Mary Bright	25 "	Aug. 4, 1750
Robert Bright	50 "	May 1, 1754
Mary Bright	119 "	} Oct. 20, 1757
Mary Bright	80 "	
William Bright	257 "	June 22, 1789."

(Ibid, 3d Series, Vol 24).

It is quite probable the aforementioned JOHN BRIGHT was the same person as the first JOHN BRIGHT in this list, and he may have been the ancestor, or father, of ANTHONY BRIGHT. If the same person, this JOHN BRIGHT was probably born in the early part of the last decade of the 17th Century, and if he died in 1749, he was perhaps 60 years of age, or upwards. No attempt was made to locate the lands acquired by said Land Warrants.

The Quakers were very modest and reserved as to their personal affairs, and unfortunately not given to keeping of family records, nor did they countenance the placing of gravestones, or markers at their graves, and such customs would account largely for the lack of this valuable data among their descendants of today.

ANTHONY WRIGHT, of Loudoun Co., Va., was probably born about 1725-30, and died in said County between January 2nd and May 11, 1818, at an advanced age. He was a Quaker and lived on his farm at Waterford, about six miles northeast from the present Town of Leesburg. When he settled at this place, and from what place he had come the family records fail to disclose. He was owner of many slaves.

He married one Elizabeth Harris, probably from Pennsylvania, but when, and who her parents were no records were found. His will was dated January 2, 1818, and duly probated in Loudoun Co. under date of May 11, 1818, where the record may be found. His executors were his son, WILLIAM WRIGHT, and one DANIEL STONE. His widow ELIZABETH WRIGHT was living then.

We know he had at least ten children, but his will names but nine, omitting the name of his daughter ANNE, wife of SAMUEL LANE RICHARDSON, who had probably previously removed to the country now called Indiana, and had probably already received her portion of her inheritance, at her marriage.

The issue of ANTHONY WRIGHT, and ELIZABETH HARRIS, were, probably in following order;

1. Anthony, who died after 1818.
2. Patterson, who died before June 11, 1827.
3. John, who died 1853.

4. Moses, who went to South America.
5. Robert, born August 24, 1763, died September 28, 1823.
6. William, who died before November, 1820.
7. Samuel, who died before September 25, 1828.
was a miller. (Mill Book R p. 322.
Loudoun Co.)
8. Daniel
9. Elizabeth, born May 20, 1773, died July 29, 1850.
10. Anne.

The county records show the wills of his sons Patterson, John, William and Samuel. His two daughters married brothers, Elizabeth, one Edward Richardson, and migrated to what is now Ohio, and Anne, one Samuel Richardson, and migrated to what is now Indiana.

Many descendants were born to these children and are now scattered thru' the United States, some still being in the old home state of Virginia, and possibly some may be now living on parts of the old farm at Waterford. The tracing of these many branches has not yet been undertaken, and it is to be hoped this work may yet be carried out at some early day by some interested descendant, for in every family there is one such at least.

Having thus far considered the early history of
ANTHONY WRIGHT, as far as now known, we pass on to the re-

cords of his children, and their descendants.

2.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) and (2) under the assumption that the functions f and g are continuous and satisfy the Lipschitz condition. It is shown that the system has a unique solution in the class of continuous functions if the functions f and g are continuous and satisfy the Lipschitz condition.

2. In the second part of the paper, the problem of the existence of solutions of the system of equations (1) and (2) is considered under the assumption that the functions f and g are continuous and satisfy the Lipschitz condition. It is shown that the system has a unique solution in the class of continuous functions if the functions f and g are continuous and satisfy the Lipschitz condition.

3. In the third part of the paper, the problem of the existence of solutions of the system of equations (1) and (2) is considered under the assumption that the functions f and g are continuous and satisfy the Lipschitz condition. It is shown that the system has a unique solution in the class of continuous functions if the functions f and g are continuous and satisfy the Lipschitz condition.
